

Flying Field Regulations

The following rules are for the safety of all members and guests. All flying must be done in accordance to the Field Regulations and it is the responsibility of all club members to see that these rules are enforced.

- Current Academy of Model Aeronautics Membership (AMA) is required for flying.
- Operation of Model aircraft is restricted to members in good standing and invited guests.
- Guest may fly up to 3 separate sessions, must have a current AMA card and a club member must be present.
- Spectators are welcomed and must remain in designated area behind pits.
- You are responsible for any actions by yourself, your guest and your children.
- Pit area is restricted to pilots, owners, and/or crew members.
- There shall be no taxiing of airplanes through the pit area.
- There shall be no flying over the pit, parking, and/or pilot area. No flying permitted behind the imaginary line running along the near edge of the runway.
- Flying permitted within a 1000 foot radius from the runway (front and sides not behind runway).
- Cars should be parked in the designated area only behind the pits.
- Mufflers are required on all aircraft engines on .10 CID and above. Mufflers must be an expansion chamber type. No straight pipes or flow-through types permitted.
- Pilots must stand in from designated pilot area.
- Pilots who are landing or taking off have priority over others flying. A pilot should announce to other pilots when taking off or landing.
- No more than (4) fixed winged aircraft and (2) helicopters allowed in the air at any one time.
- No transmitter to be turned on for range check, equipment check, or flying without the proper pin attached.
- All beginning pilots must fly utilizing the buddy box system.
- No flying of an aircraft in an unsafe or dangerous condition or with a questionable radio system. All aircraft are subject to inspection.
- Alcoholic beverages are strictly forbidden at the field.
- Pets must be on a leash at all times.
- Anyone flying in an unsafe manner shall be subject to grounding.
- Helicopters takeoff, landing and hovering must be conducted from designated area only.
- Flying must be in accordance to the Academy of Model Aeronautics (AMA) national model aircraft Safety Code.
- Flight hours:

Monday - Sunday: 1 hour after sunrise to 1 hour before sunset.
